

OnGuard  
Insurance

<https://www.onguardins.com/>

# SEO PROPOSAL

JUNE 2025

# INTRODUCTION.

# COMPANY OVERVIEW

OnGuard Insurance is a bilingual insurance brokerage based in South Carolina, serving states like Georgia, North Carolina, Tennessee, Texas, and beyond. With over 20 years' experience led by founder Jorge Lara, the agency offers a full spectrum of insurance services—health, Medicare, life, dental, and vision—focusing on helping clients find affordable, \$0/month options via ACA subsidies.

# PROJECT OVERVIEW

The SEO project for OnGuard Insurance focuses on increasing organic traffic, improving local search visibility, and attracting qualified leads through targeted keywords, bilingual content, and technical optimization. Efforts include optimizing service pages, enhancing mobile performance, creating educational blog content, and building authority with local SEO and backlinks. The goal is to boost rankings, drive engagement, and support lead generation during key enrollment periods.

# PAGESPEED INSIGHTS & SEO AUDIT

## Pagespeed Insight Performance

**3** High Issues

## Website Issues based on SEO Audit

| ISSUES                   | PRIORITY |
|--------------------------|----------|
| H1: Missing              | High     |
| Images: Missing Alt text | High     |
| H1: Multiple             | High     |
| Canonicals: Missing      | Warning  |

**8** Warning

**13** Opportunity

Report from Jun 17, 2025, 10:33:47 PM

# SEO AUDIT SUMMARY

## SEO & PageSpeed Audit Summary

- **Performance Score:** 78 (Mobile) – Moderate, with room for improvement.
- **Accessibility:** 88 – Fair, but can be optimized.
- **SEO Score:** 91 – Strong foundation with a few technical issues.

## High Priority SEO Issues:

- **H1 Missing** – Some pages lack a proper H1 tag, which is critical for SEO and accessibility.
- **H1 Multiple** – Multiple H1s on some pages, which can confuse search engines.
- **Images Missing Alt Text** – Images lack descriptive alt attributes, affecting accessibility and image SEO.

## Other Issues:

- **Canonicals Missing** – Warning-level issue; canonical tags are missing or improperly configured.

# SEO AUDIT SUMMARY

## Performance Metrics:

- **First & Largest Contentful Paint:** 3.9s – Needs improvement for better user experience.
- **Total Blocking Time:** 20ms – Excellent.
- **Speed Index:** 3.9s – Slightly slow, optimization recommended.
- **Cumulative Layout Shift:** 0 – Perfect; layout is stable during load.

## Overall Audit Stats:

- **3 High Issues**
- **8 Warnings**
- **13 Optimization Opportunities**

# RECOMMENDATIONS & ACTION PLANS

## Technical Fixes:

- Address all **issues**—start with meta descriptions, title tags, image alt attributes, and canonical tags.
- Ensure all images are compressed and follow seo guidelines.
- Add and structure H1 tags properly.
- Add descriptive alt text to all images.
- Implement canonical tags.

## Speed Optimization:

- **Compress all images**
- Install speed optimization plugins such as WP rocket, Seraphinite Accelerator
- Optimize loading speed and improve first contentful paint time.

## Content:

- Add more **optimized, keyword-rich content** (e.g., blog, FAQs)
- Ensure **mobile-first design** is prioritized
- Test mobile performance on real devices
- Ensure **keyword-rich title tags**, meta descriptions, H1s, and internal links are used across all service pages.

# BACKLINK AUDIT

# BACKLINK STRATEGY

## 1. Toxic Link Cleanup

- **Action:** Review and disavow the 34 toxic and 6 potentially toxic backlinks (totaling 40 suspicious links – over 60%).
- **Why:** High toxicity score (52.3% toxic) can negatively affect SEO performance and Google trust.

## 2. Build High-Quality Backlinks

- **Targets:** Focus on acquiring backlinks from:
  - Health and insurance-related directories
  - Local business directories in South Carolina, Georgia, and Texas.
  - Trusted blogs and publications in the insurance or financial space.

# BACKLINK STRATEGY

## 3. Increase Referring Domains

- **Current:** Only 65 referring domains – this is low for ranking competitively.
- **Goal:** Grow this to 150+ high-quality referring domains over the next 6–12 months.
- **Tactics:**
  - **Guest Posting:** Reach out to bilingual insurance and healthcare blogs.
  - **Partnerships:** Collaborate with local clinics or non-profits for backlink exchanges.
  - **Content Marketing:** Create linkable assets (e.g., ACA enrollment guides, Medicare FAQs, bilingual infographics).

## 4. Fix Broken & Lost Backlinks

- **Broken Links:** 7 referring domains and 9 backlinks are broken.
- **Lost Links:** 6 domains and 29 links lost.
- **Action:** Reach out to site owners to reclaim lost/broken links with updated URLs or new content.

# BACKLINK STRATEGY

## 5. Improve Authority Score

- **Current Score:** 9 (very low).
- **Improvement Plan:**
  - Eliminate toxic links.
  - Earn authoritative backlinks.
  - Focus on relevance and topical alignment (insurance, healthcare, finance).
  - Maintain consistent, high-quality content publication.

**SEO.**

# LOCAL SEO ENHANCEMENT

**Objective:** Dominate local search results to attract clients in specific service areas.

- **Google Business Profile:** Ensure accurate and complete information, including NAP (Name, Address, Phone number).
- **Local Keywords:** Incorporate geo-specific keywords into website content.
- **Customer Reviews:** Encourage satisfied clients to leave positive reviews on Google and other platforms.
- **Citations:** Maintain consistent NAP information across all online directories.

# ON-PAGE SEO OPTIMIZATION

**Objective:** The objective of on-page optimization is to improve search engine visibility, attract more local traffic, and enhance user experience. By optimizing titles, meta descriptions, headers, keywords, and internal links, each page becomes more relevant to both search engines and users. This leads to higher rankings, increased engagement, and more qualified leads.

- Align content with user intent and target relevant search queries.
- Craft **meta descriptions** that are benefit-driven and include target keywords.
- Use one H1 per page, containing the target keyword. Structure content with H2/H3 for better readability and SEO.
- Organize content with H2 and H3 headings, for example, H2: *Our Services* and H3
- Add internal links to connect related service pages, blog posts, and the contact page to improve user navigation.
- Use clean, keyword-focused URLs for better indexing.

# CONTENT STRATEGIES

**Objective:** Attract, engage, and convert target audiences by publishing valuable and optimized content across the website.

- **Predictive Customer Success**

Focus on how predictive analytics enhances customer outcomes. Topics include defining predictive CS, practical applications, and success measurement.

- **Customer Retention for SaaS**

Dive into data-driven strategies to reduce churn, identify at-risk customers, and increase customer lifetime value.

- **Customer Success Automation**

Explore tools and tactics for automating CS processes, including health scoring, onboarding, and feedback loops.

- **AI & Data in Customer Experience (CX)**

Examine the role of AI and machine learning in personalization, segmentation, and customer journey optimization.

# TECHNICAL SEO IMPROVEMENTS

**Objective:** Ensure that the website is **easily crawlable, indexable**, and provides a **high-performing, user-friendly experience**, which are prerequisites for strong organic visibility.

## **Recommendations:**

- **Site Speed:** Optimize images and leverage browser caching to enhance loading times.
- **Mobile Optimization:** Ensure the website is fully responsive and provides a seamless experience on all devices.
- **XML Sitemap & Robots.txt:** Implement and submit to search engines for better indexing.
- **Broken links fixing:** Fix any **broken links** and ensure all pages return proper status codes (e.g., 404, 301).

**GOOGLE ADS.**

# IMPLEMENTATION

## Setup

1. **Keyword Research:** Identify target keywords using tools like Google Keyword Planner, grouping them by themes.
2. **Structure Campaign:** Organise keywords into ad groups, select campaign type, targeting, and budget.
3. **Craft Creative:** Write concise, compelling ad copy with a clear CTA
4. **Review & Signoff:** Ensure campaign alignment with goals, check for errors, and obtain necessary approvals.
5. **Implement:** Launch the campaign, manage budget and bids, and monitor performance for adjustments.

Google Ads

**REPORTING.**

# MONITORING & REPORTING

## Tools & Metrics:

- **Google Analytics:** Track website traffic, user behavior, and conversion rates.
- **Google Search Console:** Monitor search performance and identify indexing issues.
- **Monthly Reports:** Provide detailed reports outlining progress, insights, and areas for improvement.

# PROPOSED TIMELINE

## **Month 1:**

- **SEO ACTIVITIES:**

- Full website SEO audit (technical, content, backlink)
- Fix high-priority issues (H1 tags, alt texts, canonicals)
- Keyword research (bilingual: English & Spanish)

## **GOOGLE ADS:**

- Google Ads account audit
- Keyword research & segmentation
- Create campaigns for Health Insurance, ACA, and Medicare
- Setup conversion tracking (calls, forms, click-to-call)

## **Month 2:**

- **SEO ACTIVITIES:**

- On-page optimization (meta titles, headings, internal linking)
- Create location-based service pages (SC, GA, TX, etc.)
- Begin blog content (ACA, Medicare tips, FAQs)

## **GOOGLE ADS:**

- Launch first set of campaigns (Search + Call Ads)
- Set up remarketing audiences
- A/B test ad copies and landing page variants

# PROPOSED TIMELINE

## **Month 3:**

- **SEO ACTIVITIES:**

- Mobile optimization & page speed improvements
- Structured data/schema markup (FAQs, services, local business)
- Submit disavow file for toxic backlinks

## **GOOGLE ADS:**

- Optimize bidding strategy (Switch to Max Conversions or tCPA)
- Expand with Display Network remarketing
- Launch Spanish-language ads targeting bilingual users

## **Month 4:**

- **SEO ACTIVITIES:**

- Publish local blog content and evergreen guides (e.g., Medicare enrollment timeline)
- Gain backlinks via guest posts and directories
- Google Business Profile optimization for all service areas

## **GOOGLE ADS:**

- Focus on high-performing campaigns
- Introduce new seasonal ad sets (e.g., pre-enrollment countdown)
- Optimize negative keywords and search terms

# PROPOSED TIMELINE

## **Month 5:**

- **SEO ACTIVITIES:**

- Review content performance and adjust based on traffic/CTR
- Continue local SEO (citations, reviews outreach)
- Refresh underperforming blog posts/pages

## **GOOGLE ADS:**

- Launch campaign for ACA Open Enrollment (early prep)
- Optimize device/location targeting

## **Month 6:**

- **SEO ACTIVITIES:**

- Full SEO performance review (GSC, GA4, rankings, backlinks)
- Adjust blog & page strategy for next quarter

## **GOOGLE ADS:**

- Scale campaigns during Open Enrollment
- Allocate more budget to best-performing keywords
- Analyze ROAS, cost per lead, and prepare Q4 ad strategy
