PREDICTIVE CUSTOMER SUCCESS
Predictive Customer Behavior Index™

PROPOSAL

MAY 2025

INTRODUCTION.

COMPANY OVERVIEW

Predictive Customer Success is a consultancy dedicated to enhancing customer retention and expansion for B2B SaaS and subscription-based companies. Their flagship tool, the Predictive Customer Behavior Index™ (PCBI), comprises 175 standards designed to assess and improve customer success operations. By aligning these standards with a company's size and growth trajectory, PCBI helps organizations identify gaps and implement strategies for better customer outcomes .

PROJECT OVERVIEW

The SEO campaign for Predictive Customer Success will encompass comprehensive on-page and off-page optimization, content marketing, and local SEO. My approach is designed to achieve long-term success and establish your company as a prominent authority in the specified industry.

SEO AUDIT SUMMARY

Total Issues Tracked: 32

Most Common Issue Types:

- **Opportunity:** 17 issues (potential improvements)
- **Warning:** 15 issues (likely harmful if unresolved)

Top 5 Issues by % of Affected URLs:

1. **Internal Outlinks With No Anchor Text** (39.47%)
2. **Low Content Pages** (10.53%)
3. **Canonical Tags: Missing or Multiple Tags** (5.26%)
4. **Title Tags: Missing** (5.01%)
5. **Images: Missing Alt Attributes** (3.47%)

Performance Score: 57 (Poor) - Mobile

This is significantly below acceptable standards. Major improvements are needed.

RECOMMENDATIONS & ACTION PLANS

Technical Fixes:

- Address all **issues**—start with meta descriptions, title tags, image alt attributes, and canonical tags.
- Ensure all images are compressed and follow seo guidelines.

Speed Optimization:

- **Compress all images**
- Install speed optimization plugins such as WP rocket, Seraphinite Accelerator

Content:

- Add more **optimized, keyword-rich content** (e.g., blog, FAQs)
- Ensure **mobile-first design** is prioritized
- Test mobile performance on real devices
- Ensure **keyword-rich title tags**, meta descriptions, H1s, and internal links are used across all service pages.

BACKLINK STRATEGY

1. Disavow or Remove Toxic Links

- Review the 4 toxic and 2 potentially toxic domains.
- Use the **Google Disavow Tool** if removal isn't possible.
- This will reduce spam signals and help improve domain authority.

2. Diversify & Improve Backlink Quality

- Focus on acquiring backlinks from high-authority, niche-relevant websites.
- Leverage guest posting, expert roundups, and partnerships.

3. Fix Broken Links

- Identify the broken backlink and either:
 - Reclaim it by reaching out to the referring domain.
 - Redirect the broken URL to an active, relevant page.

4. Increase Authority Score

- Publish thought leadership content (case studies, whitepapers).
- Engage in PR and digital mentions on authoritative industry blogs.

SEO.

LOCAL SEO ENHANCEMENT

Objective: Dominate local search results to attract clients in specific service areas.

- **Google Business Profile:** Ensure accurate and complete information, including NAP (Name, Address, Phone number).
- **Local Keywords:** Incorporate geo-specific keywords into website content.
- **Customer Reviews:** Encourage satisfied clients to leave positive reviews on Google and other platforms.
- **Citations:** Maintain consistent NAP information across all online directories.

**TECHNICAL &
ON-PAGE SEO.**

ON-PAGE SEO OPTIMIZATION

Objective: The objective of on-page optimization is to improve search engine visibility, attract more local traffic, and enhance user experience. By optimizing titles, meta descriptions, headers, keywords, and internal links, each page becomes more relevant to both search engines and users. This leads to higher rankings, increased engagement, and more qualified leads.

- Align content with user intent and target relevant search queries.
- Craft **meta descriptions** that are benefit-driven and include target keywords.
- Use one H1 per page, containing the target keyword. Structure content with H2/H3 for better readability and SEO.
- Organize content with H2 and H3 headings, for example, H2: *Our Services* and H3
- Add internal links to connect related service pages, blog posts, and the contact page to improve user navigation.
- Use clean, keyword-focused URLs for better indexing.

CONTENT STRATEGIES

Objective: Attract, engage, and convert target audiences by publishing valuable and optimized content across the website.

- **Predictive Customer Success**

Focus on how predictive analytics enhances customer outcomes. Topics include defining predictive CS, practical applications, and success measurement.

- **Customer Retention for SaaS**

Dive into data-driven strategies to reduce churn, identify at-risk customers, and increase customer lifetime value.

- **Customer Success Automation**

Explore tools and tactics for automating CS processes, including health scoring, onboarding, and feedback loops.

- **AI & Data in Customer Experience (CX)**

Examine the role of AI and machine learning in personalization, segmentation, and customer journey optimization.

TECHNICAL SEO IMPROVEMENTS

Objective: Ensure that the website is **easily crawlable, indexable**, and provides a **high-performing, user-friendly experience**, which are prerequisites for strong organic visibility.

Recommendations:

- **Site Speed:** Optimize images and leverage browser caching to enhance loading times.
- **Mobile Optimization:** Ensure the website is fully responsive and provides a seamless experience on all devices.
- **XML Sitemap & Robots.txt:** Implement and submit to search engines for better indexing.
- **Broken links fixing:** Fix any **broken links** and ensure all pages return proper status codes (e.g., 404, 301).

REPORTING.

MONITORING & REPORTING

Tools & Metrics:

- **Google Analytics:** Track website traffic, user behavior, and conversion rates.
- **Google Search Console:** Monitor search performance and identify indexing issues.
- **Monthly Reports:** Provide detailed reports outlining progress, insights, and areas for improvement.

PROPOSED TIMELINE

Month 1:

- **Website Audit and Keyword Research:**

Conduct a thorough website audit to identify areas for improvement.

Perform in-depth keyword research to identify target keywords.

On-Page Optimization:

Optimize meta tags, URL structure, header tags, and content based on target keywords.

Month 2:

- **Local SEO Implementation:**

Claim and optimize Google My Business (GMB) listing.

Establish local citations to enhance local search presence.

Content Marketing Strategy:

Develop a content marketing plan focused on blog posts and informative articles.

Create and publish the first set of high-quality blog posts.

Month 3:

- **Off-Page SEO and Link Building:**

Start ethical link-building activities to acquire high-quality backlinks.

Seek partnerships with local businesses for cross-promotional opportunities.

PROPOSED TIMELINE

Month 4:

- **Content Marketing Continuation:**

Publish the second set of blog posts and articles to maintain a consistent content schedule.

Ongoing Optimization:

Monitor website performance and make necessary adjustments for better results.

Month 5:

- **Local Content and Engagement:**

Continue creating location-specific content and engaging with the local audience.
Respond to customer reviews and inquiries on Google My Business and other platforms.

Progress Analysis:

Analyze the SEO progress and make data-driven decisions to further optimize the strategy.

Month 6:

- **Final Optimization and Reporting:**

Conduct a final round of on-page and off-page optimization.
Provide a comprehensive SEO report summarizing the results achieved during the campaign.

LET'S GO!
