SEO PROPOSAL

AUGUST 2025

SEO

INTRODUCTION.

COMPANY OVERVIEW

Roof Rejuvenate Upstate is a family-owned roofing business based in Travelers Rest, South Carolina, specializing in bio-based asphalt shingle rejuvenation. Founded by Richard and Gini, the company offers a cost-effective and eco-friendly alternative to roof replacement, helping homeowners save up to 85%. Their services focus on restoring oils in aging shingles to extend roof lifespan and improve durability. They also offer a Preferred Rejuvenation Maintenance Plan that includes inspections, tune-ups, and fixed pricing. Known for integrity and personalized service, they have built a trusted reputation across Upstate South Carolina and Western North Carolina.

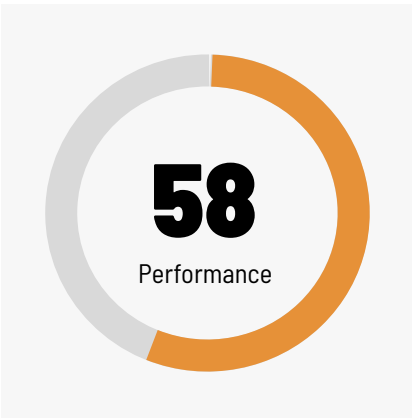

PROJECT OVERVIEW

The SEO project will focus on increasing local visibility and driving more qualified traffic to Roof Rejuvenate Upstate's website. On-page improvements will include optimized meta tags, headers, and service pages. The strategy also includes technical SEO fixes, blog content creation, and local backlink development. Additionally, conversion rate optimization and Google Business Profile enhancements will help turn search visitors into booked appointments.

WEBSITE & BACKLINK ANALYSIS.

PAGESPEED INSIGHTS & SEO AUDIT

Pagespeed Insight Performance

0 High Issues

Website Issues based on SEO Audit

ISSUES	PRIORITY
Meta Description: Missing	High
Low word count	High
Duplicate title tags	High
Images: Missing Alt Attribute	High

28 Warnings

9 Notices

SEO AUDIT SUMMARY

Site Health: 89%

(Below the top 10% benchmark of 92% – improvement needed)

The site is in fair health but requires attention to technical SEO, metadata, and content optimization to meet best-in-class standards.

- **Errors:** 0
No critical issues found.
- **Warnings:** 28
These are moderate issues that may affect rankings, such as missing image alt tags, long meta descriptions, or improper heading structure.
- **Notices:** 8
Minor issues that still impact SEO (e.g., duplicated metadata, low word count on some pages).

Performance Score: 58 (Poor) – Mobile

This is significantly below acceptable standards. Major improvements are needed.

SEO AUDIT SUMMARY (continuation)

Top Priorities for Improvement:

1. **Reduce LCP time** by optimizing large images, deferring offscreen content, and improving server response time.
2. **Address critical SEO errors and warnings** such as broken links, missing metadata, or duplicate content.
3. **Boost overall page speed** by implementing lazy loading, compressing assets, and minimizing unused JavaScript/CSS.
4. **Audit image usage** across the site to ensure all have descriptive alt tags and are appropriately sized.
5. **Target warnings and notices** to elevate site health score closer to or above 90%.

RECOMMENDATIONS & ACTION PLANS

Technical Fixes:

- Fix broken links and crawl errors
- Apply proper canonical tags
- Ensure unique titles and meta descriptions per page
- Correct heading structure

Speed Optimization:

- Compress all images

Content:

- Add alt text to all images
- Expand service and landing page content
- Optimize meta titles and descriptions
- Add schema markup

BACKLINK STRATEGY

1. Fix Existing Issues

- Set up proper redirects or update content to match linked pages.

2. Build Local Citations

- Submit to high-authority directories like Yelp, BBB, Houzz, and local Greenville/Upstate SC listings.
- Ensure consistent Name, Address, and Phone (NAP) info across all platforms.

3. Create Link-Worthy Content

- Publish blogs like “Benefits of Roof Rejuvenation” or local homeowner guides.
- Use visuals and real case studies to make content more shareable.

4. Monitor & Grow

- Use tools like SEMrush or Google Search Console to track new backlinks and authority growth.
- Repeat what works, remove toxic links, and aim for consistent link building monthly.

LOCAL SEO.

LOCAL SEO ENHANCEMENT

Objective: Dominate local search results to attract clients in specific service areas.

- **Google Business Profile:** Ensure accurate and complete information, including NAP (Name, Address, Phone number).
- **Local Keywords:** Incorporate geo-specific keywords into website content.
- **Customer Reviews:** Encourage satisfied clients to leave positive reviews on Google and other platforms.
- **Citations:** Maintain consistent NAP information across all online directories.

**TECHNICAL &
ON-PAGE SEO.**

ON-PAGE SEO OPTIMIZATION

Objective: The objective of on-page optimization is to improve search engine visibility, attract more local traffic, and enhance user experience. By optimizing titles, meta descriptions, headers, keywords, and internal links, each page becomes more relevant to both search engines and users. This leads to higher rankings, increased engagement, and more qualified leads.

- Align content with user intent and target relevant search queries.
- Craft **meta descriptions** that are benefit-driven and include target keywords.
- Use one H1 per page, containing the target keyword. Structure content with H2/H3 for better readability and SEO.
- Organize content with H2 and H3 headings, for example, H2: *Our Services* and H3
- Add internal links to connect related service pages, blog posts, and the contact page to improve user navigation.
- Use clean, keyword-focused URLs for better indexing.

TECHNICAL SEO IMPROVEMENTS

Objective: Ensure that the website is easily crawlable, indexable, and provides a high-performing, user-friendly experience, which are prerequisites for strong organic visibility.

Recommendations:

- **Site Speed:** Optimize images and leverage browser caching to enhance loading times.
- **Mobile Optimization:** Ensure the website is fully responsive and provides a seamless experience on all devices.
- **XML Sitemap & Robots.txt:** Implement and submit to search engines for better indexing.
- **Broken links fixing:** Fix any **broken links** and ensure all pages return proper status codes (e.g., 404, 301).
- **Structured Data & Schema:** Ensure all schema passes Google's rich results validation. Review schema for testimonials on service/case study pages.

REPORTING.

MONITORING & REPORTING

Tools & Metrics:

- **Google Analytics:** Track website traffic, user behavior, and conversion rates.
- **Google Search Console:** Monitor search performance and identify indexing issues.
- **Monthly Reports:** Provide detailed reports outlining progress, insights, and areas for improvement.

PROPOSED TIMELINE

Month 1:

- **Website Audit and Keyword Research:**

Conduct a thorough website audit to identify areas for improvement.

Perform in-depth keyword research to identify target keywords.

On-Page Optimization:

Optimize meta tags, URL structure, header tags, and content based on target keywords.

Month 2:

- **Local SEO Implementation:**

Claim and optimize Google My Business (GMB) listing.

Establish local citations to enhance local search presence.

Content Marketing Strategy:

Develop a content marketing plan focused on blog posts and informative articles.

Create and publish the first set of high-quality blog posts.

Month 3:

- **Off-Page SEO and Link Building:**

Start ethical link-building activities to acquire high-quality backlinks.

Seek partnerships with local businesses for cross-promotional opportunities.

PROPOSED TIMELINE

Month 4:

- **Content Marketing Continuation:**

Publish the second set of blog posts and articles to maintain a consistent content schedule.

Ongoing Optimization:

Monitor website performance and make necessary adjustments for better results.

Month 5:

- **Local Content and Engagement:**

Continue creating location-specific content and engaging with the local audience.
Respond to customer reviews and inquiries on Google My Business and other platforms.

Progress Analysis:

Analyze the SEO progress and make data-driven decisions to further optimize the strategy.

Month 6:

- **Final Optimization and Reporting:**

Conduct a final round of on-page and off-page optimization.
Provide a comprehensive SEO report summarizing the results achieved during the campaign.

LET'S GO!
